

Founded in **1907** Employees **55,000+** Group companies **213** FY2019 net sales **14 Billion US Dollar**

AGC's highly technical and fully automated businesses extend into over 30 countries

- Japan/Asia**
Percentage of sales by region **67%**
Employees **32,000**
- Europe, Middle East & Africa**
Percentage of sales by region **22%**
Employees **17,000**
- The Americas**
Percentage of sales by region **11%**
Employees **5,000**

GLASS

Perfect combination of aesthetics, comfort, safety & energy savings

The AGC Group is the largest glass manufacturer and a leading supplier of glass products to building, automotive and display industries. Glass is essential to daily life and we are constantly exploring the opportunities to respond to the changing needs of society.

CHEMICALS

Environmental conservation, safe and secure society

First started 100 years ago, with in-house production of soda ash, AGC Group continues to provide a wide variety of products for a fulfilling, safe and comfortable society and environment, from basic chemicals to fluoride-based high-function chemicals.

LIFE SCIENCE

For an affluent lifestyle

Sodium bicarbonate has a wide range of applications, from making sweets to cleaning. In the medical field, it is a useful stomach medicine and artificial dialysis agent. Even in the constantly evolving medical industry, the chemical capabilities of the AGC Group are making a strong contribution.

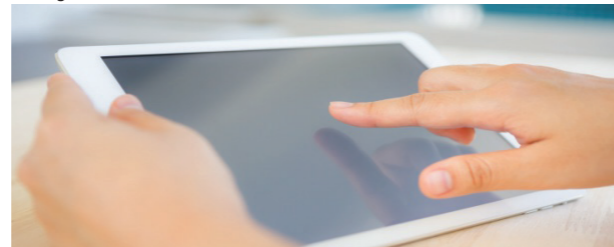

AGC Biologics - group's unit responsible for the bioscience operations across Asia, Europe, North and South Americas - is a part of the European COVID-19 vaccine development consortium team.

ELECTRONICS

Making discoveries, providing inspiration

AGC's touchscreen displays are in all areas of daily life, from TVs to smartphones. A specialty glass for chemical strengthening - Dragontrail™ - is widely used by world class manufacturers of electronic devices, to protect them from scratches and breakage.

CERAMICS

Looking into the future, protecting cities

The AGC Group's heat-shielding paving materials lower the temperature of road surfaces, helping to reduce the heat island phenomenon. We constantly continue to care about people's lifestyles and the environment by supporting urban infrastructure.

AGC Biologics

- Oversized extra-clear glass
- Patterned glass
- Anti-reflective glass
- Solar control glass
- Media glass
- Active BIPV glass
- Acoustic laminated safety glass
- Decorative painted glass
- Smart-tinting glass

ARCHITECTURAL GLASS

An ultimate range of products for any project

The aesthetic, technical and energy properties of AGC glass make its scope of applications practically unlimited: from external glazing to interior decoration and industrial uses. With the richness of the ranges, architects and interior designers alike will find a material that gives shape to their creative inspiration and tames light, while assuring comfort for the building occupants and actively protecting the environment.

- ultimate aesthetics
- solar control
- comfort & efficiency
- electricity generation
- safety & security
- thermal insulation
- noise reduction
- privacy control

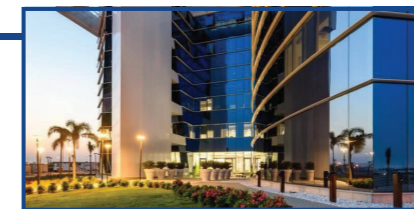

MIDDLE EAST AND AFRICA – AGC OBEIKAN GLASS

- Joint Venture between AGC Glass Europe and Obeikan Glass Company established **2016**
- The most technologically-advanced coater in the world **Nr.1**
- High-end coated glass production capacity per year **5,5Mm²**
- Magnetron coater sputtering positions **72**

MAGNETRON COATINGS RANGE

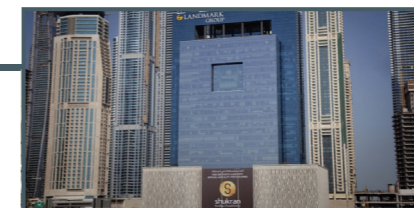

SOLAR CONTROL

- Sunlux Shadow 14
- Sunlux Shadow 20
- Sunlux Shadow 32
- Sunlux Gold
- Sunlux Chroma Blue, Bronze, Green
- Sunlux Dark Chroma Dark Blue, Dark Green, Dark Grey
- on clear substrate

SOLAR CONTROL & LOW EMISSIVITY 1Ag

- Stopray Smart 18
- Stopray Smart 30
- Stopray Smart 51
- on clear & tinted substrates (bronze, green, grey)

LOW EMISSIVITY

- Iplus Solid
- Iplus AS
- Energy Light
- on clear substrate (optionally on tinted)

SOLAR CONTROL & LOW EMISSIVITY 2Ag

- Stopray Ace-30T (Blue, Bronze, Grey)
- Stopray Vision-40T
- Stopray Vision-51T
- Stopray Vision-62T
- Stopray Vision-72T
- Stopray Titanium-34T
- on clear substrate (except Titanium-34T)
